Sir:

Applicant files this Response to the Advisory Action mailed March 14, 2006.
Please consider this paper as a Request for Continued Examination and as a petition
for five months extension.

Reconsideration and allowance of the above-identified application is respectfully
requested. Claims 102-205 are pending in the present application.

This request for examination after final is necessitated by the PTO's failure to
properly consider Applicant's extensive scientific evidence of record proving the
existence of lower-energy hydrogen, i.e., "hydrinos," underlying his claimed invention.
This failure continues even after the PTO agreed to a procedure by which it would allow
claims supported by scientific data generated and furnished by independent third
parties.

In addition to the comprehensive disclosure in Applicant's originally filed
specification, Applicant has submitted new, non-cumulative scientific evidence further
confirming the existence of lower energy states of hydrogen, which evidence includes,
